One-Time

Where the Business X-Ray™ diagnoses, the Engine **installs**. Over 60 days, we build the five core systems that fix the bottlenecks your X-Ray revealed — done **with** you, not handed to you — until the business runs predictably without you as the bottleneck.

PHASE 1 The 5-System Architecture

- S1 The Business Blueprint**
Clear offer, ideal customer, pricing & positioning
- S2 The Lead Generation Machine**
Predictable multi-channel demand + tracking
- S3 The Sales Conversion System**
Scripts, follow-up cadence, pipeline in a CRM
- S4 The Team & Delegation System**
SOPs, delegation ladder, first real hand-off
- S5 The CEO Operating System**
Financial dashboard + calendar + weekly rhythm
- + Mindset & Accountability Thread**
Weekly rhythm that keeps the reps happening

PHASE 2 How It's Delivered

- 1. 8 Live DWY Sessions** — each ends with a system partly built
- 2. Complete Asset Library** — templates, scripts, SOPs, dashboards
- 3. WhatsApp Accountability** — weekly check-ins so systems get built
- 4. Day-60 Scorecard** — re-measures all 7 layers, proves the gain
